sustainably*

# SolarBuddy

Help children to learn

In this "Hour of Power", your team creates SolarBuddies for children living in areas affected by energy poverty. Together with our licensed partner, solar lights are built within an hour, which help children to study for school in the evening, for example. At the beginning, you learn about the problem of energy poverty in the world by means of a presentation and videos. This is followed by the construction of the solar lights and the writing of the message to the child who receives the solar light, while success stories from previous projects are shown on video. At the end there is a farewell photo, and the solar lamps and messages are collected and sent by our partner to the NGO SolarBuddy and then find their way to e.g. Tanzania, Dominican Republic, Papua New Guinea, Vanuatu, East Timor, Cambodia, India or South Africa.

## Nature Rally

*Exciting challenges in nature*

Discover the nature around the castle with an exciting nature rally. Your participants will solve multiple-choice questions, open questions, audio puzzles and photo and video challenges in small groups using tablets and will not only have learned a lot about the surroundings at the end, but will also have a deeper understanding of nature. The rally is moderated, and the best photos and videos are chosen at the end.

# WindFarm

Discover new energy

In this challenge, small groups set themselves the task of constructing a functioning wind turbine in order to create a small wind farm as a team. The difficulty? Each component has an assigned CO2 value, which should of course be as low as possible. An additional level of interaction and education is provided by a tablet-based game that entices the teams with a series of fun facts and challenges relating to the topic of sustainability.

Who wins? The team with a functioning wind turbine that also has the best net CO2 balance. The real winner? Our environment.

## *Team meets Moss*

An individual and sustainable event that is right on trend. Together as a team, you take on the challenge of creating a motif out of moss. Whether this motif is the logo of your company, a slogan or the motto of the conference - there are no limits to your creativity!

Divided into small teams, each team member takes on a section of the motif. A base on which to mount the moss must be created and prepared, with hammering, sawing and sanding. Moss patches are selected and lovingly arranged.

The team is challenged in terms of planning, craftsmanship and aesthetics.

Only when everyone pulls together and develops a common vision can the big group picture in front of the finished Mo(ss)tif.

**Steve Jobs**

# Winemaking Academy

« Winemaker Challenge »

WINE MAKING ACADEMY is an original team-building concept that gives you an insight into the life of real oenologists.

You will work as a team to make your own wine by blending six red grape varieties from your vineyard. You give your cuvée a name and design the label. Everything you do in the winery can have an impact on your marketing, sales and financial strategy.

It is a simulation of a winery. A blind tasting of all the wines produced by all participants concludes this unique wine animation full of surprises.

Good teams are like good wines: they are based on an alchemy of passion, respect, trust, listening and hard work. Not on rigid recipes.

## Graffiti – Workshop

*Bringing colour into the everyday business*

Who hasn't always wanted to , but where were you allowed to...!?

Here! Paint creative graffiti and beautify your workplace with them. On canvases of different sizes graffiti brings colour into your everyday routine. All participants work together on a large project. During the workshop you will learn the basic techniques and work on your personal piece of art. You choose the motifs to match the identity of your business. Our graffiti workshops are fun, create a sense of unity and encourage creativity.

## Teampainting

*Design with creativity and visualise with fun*

A colourful experience characterised by creativity and sustainability. Whether in small groups or each participant on their own, true masterpieces will be created. Decide for yourself whether you want to create many smaller pictures, several medium-sized pictures or a huge work of art from individual mosaic pieces.

Team painting offers you fantastic opportunities to motivate your employees and encourage communication among them, strengthens team spirit and allows the individual employee to show their strengths. While working on the collective pictures, your employees communicate on a completely new level.

# Mission Escape

The ultimate  
mystery-event

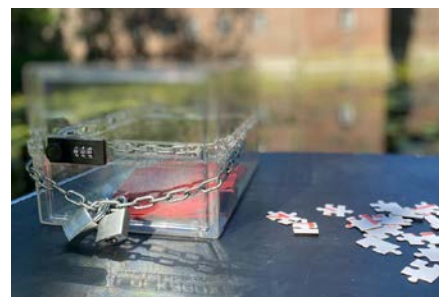

Does a GPS treasure hunt sound exciting? But would the Escape Room also be just right for your team?

Immerse yourself in the adventure of Mission Escape - the unique team event that combines all our puzzle formats. Experience escape rooms, escape boxes and GPS treasure hunts.

Together you form teams and embark on a captivating journey that takes you through tricky puzzles, mysterious clues and exciting tasks.

This is not about competition, but about the maximum team experience, because not only do the teams have to work together - each team also has to contribute to the final solution to help the whole group.

The best way to escape is together - are you ready for Mission Escape?

## Escape Room

● *Locked in a room*

Cleverness and teamwork are required to master this challenge. Get involved in this unforgettable experience together with your colleagues and team members. You will be locked in a room for 77 minutes and immerse yourself in another world. For example, your task could be to defuse a bomb or escape from an old bunker.

You explore the room and discover various riddles, tasks, combinations and hidden clues. To successfully solve the task and escape the room, you must look at the surroundings very carefully, look at each object, work in a team, be attentive and curious.

### Place

Indoor

### Time

2 hrs.

### Price

800 € plus VAT per room  
(max. 10 participants per room)

## Outdoor Escape

*Riddle, fiddle and escape as a team*

You have lost all memory of the night and find yourself chained up as a team in a forest!

How do you get out of it? Violence? Absolutely pointless and futile! Cleverness and teamwork are required to master this challenge. Get involved in this unforgettable experience together with your colleagues and team members. You are on your own and immerse yourself in another world. You explore the scene and discover various riddles, tasks, combinations and hidden clues.

To successfully complete the mission and escape the chains, you must look at the surroundings very closely, look at all the objects, work in a team, be attentive and curious.

You should be in constant exchange with your team colleagues in order to be able to skillfully combine the different clues and information. Those will take you a step closer to a successful "escape".

# TeamRescue

*Race against time*

Recreate the following scenario with your team and discover hidden talents:

After an unexpected crash landing, you find yourself in a challenging situation: your team is on its own, surrounded by the remains of your plane. There is hope - but only if you manage to find objects in the wreckage that are vital for survival.

Equipped with a map and compass, water purification systems and safety equipment, you set off for an abandoned radio station. Navigate through unknown terrain, provide food and water, and rescue essential items from extreme locations such as heights, depths and floods. Your goal: light a beacon to signal your rescue.

This mission offers a unique opportunity to get to know your colleagues under completely new circumstances. In an atmosphere characterized by a shortage of time and limited resources, one thing counts above all: keeping calm and standing together as a team.

# Abandoned Crime Scene

The echo of the just committed murder is still clearly visible through the police cordon tape, the chalk sketch of the body and the clueless forensics team....

Although the circle of suspects has been narrowed down, the local police is still in the dark.

You must convict the real criminal and find the crucial clues.  
But how do you get the hair sample from the tree stump? What tools do you use and how do you secure the fingerprints?

Only by working together can you convict the perpetrator and claim the much-deserved reward.

# Alchemist Quiz

*An interactive evening experience*

We offer you and your team a unique excursion into the world of alchemy and fairground ambience.

Every question and challenge is tailored to your team in terms of type and quality. The categories of the Alchemist Quiz will not only take you into the realm of chemistry but will also challenge your team's knowledge in categories such as "childhood heroes", politics and history, astronomy and many other subjects.

However, your performance is not limited to simply answering given questions. Many categories require the active use of one's taste buds, ears, physical strength and, above all, the cooperation of your team members.

# The Secret of the Castle

Like many other historic buildings, our houses have heard a few stories through the centuries and hold a few secrets.

In this eventful team activity, you go on a journey of discovery in small groups. Step by step, you will learn more about the house and uncover the big secret about the castle. You will casually discover the location and the numerous possibilities that both the grounds and the house have to offer.

Equipped with tablets, you set off in small teams.

At the end of the day, it will show which team was able to find out the most about the house and thereby uncover the castle's secret.

This format is ideal for both familiarizing yourself with the location and quickly finding your way around the grounds. We hope you enjoy discovering...

## *Lasertag*

During our laser tag challenge, you and your team will experience pure action and adrenaline.

The teams act together, entrench themselves behind a barrier, prepare for the next attack and storm forward together on a signal. The trend sport of laser tag is a tactical simulation of an indoor or outdoor battle.

A team can only defeat the opposing team through teamwork and communication. Various game modes (e.g. Capture The Flag) are available.

An experienced "veteran" observes the game at all times, supports the teams and acts as game master.

## Company Olympics

*Mastering challenges & overcoming boundaries*

Your teams compete in several classical as well as non-classical Olympic disciplines.

They compete against each other in several disciplines, such as archery, javelin throwing, relay running or unclassical human table soccer and bubble ball. The individual stations are supervised by experienced guides who instruct the game and act as referees at the same time.

At the end of the competition, there is an award ceremony to reveal which team has mastered the challenges best and can thereby secure the day's victory. Everyone is challenged with their individual skills to get a place on the podium for the team.

## Archery

*Dynamic and target-oriented team building*

A spectacular atmosphere and breathtaking fun for the whole team. Insert the arrow, draw the bow, aim accurately and then hit the bull's eye.

Our experienced guides show you the small 1x1 of original archery. After an introduction to the technique of traditional archery, a training shoot follows, during which the participants familiarize themselves with the bow. After only a short time, you will celebrate your first shooting successes. Exciting team competitions are then held to determine which team has the best aim.

### Time

1 - 2 hrs (on request)

### Price

69 € plus VAT per additional participant.

## Night-Archery

*Illuminated by torches, aiming through the night*

In the darkness of the night, illuminated only by the flames of torches and a fire, hit the bull's eye in Robin Hood style. Insert the arrow, draw the bow, aim accurately and then hit the bull's eye. Like the King of Thieves himself, each archer lets his own arrows fly, but always for the greater good - the team.

Our experienced guides will introduce you to the 1x1 of traditional archery. Exciting team competitions will then determine who would have had a good chance of surviving in the Middle Ages. A very special and adventurous group experience for every team.

### Time

1 - 2 hrs (on request)

# *Personal Training Active as a team*

The motivation and performance of your employees are increased through targeted health promotion methods.

The fun and enjoyable health program promotes an inner attitude to sport among the participants and improves the shared sense of community.

A healthy lifestyle essentially consists of the 3 elements of exercise, nutrition and regeneration. Choose for yourself what is of interest to your team. Conceivable are workshops and impulse lectures on a wide variety of topics. For instance, should it be an active group training such as Crossfit, Yoga, Tai-Chi or Nordic Walking? Or rather a lecture on a topic like in the workplace?

You have the choice; we have the matching offer.

## Drone Race

In this competition, we work with the participants to create a challenging course that demands skill and precision from the drone pilots. The aim is to avoid collisions, as any contact with the obstacles results in penalty seconds - and in a race where every second counts, these are particularly precious. In addition to the quadrocopters, you can also experience Sphero Balls (ground drones). Using an intuitive app, the groups steer the robot balls around the race track and give it their all. The teams use iPads as cockpits on their way to collective team success. The third challenge is a construction project that packs a punch: The teams have to prove themselves in the Lego workshop and work together to manufacture a drone. Tricky communication hurdles included.

Are you ready to become a pilot?

## Mario Kart Event

Everyone knows Super Mario. But not yet the unique Mario Kart experience! With remote-controlled Mario karts, retro N64 game consoles and an exciting carrera track, this event takes fun and teamwork to a whole new level. Action and adrenaline guaranteed.

All good things come in fours! This also applies to the entertaining team event with the mustachioed plumber and his friends: play against your colleagues with the retro N64 controller. On a real tube in a living room atmosphere- no problem! Chase the balloons with the RC remote control and the Mario quads. Or, meanwhile, build the mariokarts in the kart factory! For the finale, we invite you to the Carrera track. Things heat up once again here.

Mamma mia - what a team event!

## Soapbox Race

*Your own cart racing competition!*

The participants construct adventurous and creative soapboxes in small teams from adaptable construction kits.

The groups share tasks such as body design, marketing concept and construction. This way, everyone is involved and can contribute their individual skills and personal strengths. After construction, everyone presents their vehicle in an entertaining car show. Here, the special features of one's own soapbox can be showcased. The event comes to an eventful conclusion in a race with drivers and pushers.

### **Cheer on your team with a motivating battle cry!**

Planning and building the soapboxes together promotes cooperation and team spirit among the participants. This allows the group to experience a new sense of togetherness outside of everyday work. Take the enthusiasm and motivation from this day into your everyday life! A creative and unusual activity that challenges the whole team.

# *Creative Marble Run*

*finding solutions -  
designing gateways*

The goal of this building project is the joint development and construction of a marble run system. First, several teams prepare partial sections of the marble run, which are then assembled. The tasks are challenging: For example, a loop has to be integrated and the ball has to make it.

Creativity and innovative ideas are needed. Success lies in good coordination between everyone involved with a view to the overall goal, without losing sight of one's own task.

The ambition of the participants will certainly be awakened at this event! The focus is on creativity and detailed solutions.
