SolarBuddy

Social Impact / Teambuilding

In this 'Hour of Power', her team creates SolarBuddies for children living in areas affected by energy poverty.

Together with our licensed partner, solar lanterns are built within an hour, which help children to study for school in the evening, e.g.

At the beginning, your team is informed about the problem of energy poverty in the world by means of a presentation and videos. This is followed by the construction of the solar lights and the writing of the message to the child who receives the solar light, while success stories from previous projects are shown on video.

At the end there is a farewell photo and the solar lamps and messages are collected and sent by our partner to the NGO SolarBuddy and then find their way to e.g. Tanzania, Dominican Republic, Papua New Guinea, Vanuatu, East Timor, Cambodia, India or South Africa

EcoBuddy

Digital inclusion / social sustainability / commitment

In small teams, you will build an EcoBuddy, a modular and complex solar system that is much more than just a source of energy. It connects people in developing countries, who often have to make do without electricity, with each other and with the world. For these families, digital inclusion means more than just charging their devices for everyday use.

It creates opportunities:

- New directions on the labour market and in the economy.
- Opportunities for girls and women on the path to greater equality.
- And channels for medicine to make knowledge and advice widely available

WindFarm

CO² footprint / ecological sustainability / learning

In this challenge, you have to construct a functioning wind turbine in small groups in order to create a small wind farm as a team. The difficulty? Each building component has an assigned CO₂ value, which should of course be as low as possible. An additional level of interaction and education is provided by a tablet-based game that entices the teams with a series of fun facts and challenges relating to the topic of sustainability.

Who wins? The team with a working wind turbine that also has the best net CO₂ balance.

The real winner? Our environment.

Team meets Moss

Creative / Sustainable / Team building

A bespoke and sustainable event that is right on trend. Together as a team, you take on the challenge of creating an image out of moss. Whether this motif is the logo of your company, a slogan or the motto of the meeting - there are no limits to your creativity! Divided into small teams, each team member takes on a section of the motif. A base on which to attach the moss must be created and prepared, with hammering, sawing and sanding. Moss patches are selected and carefully arranged. The team is challenged in terms of planning, craftsmanship and aesthetics. Only when everyone pulls together and develops a common vision can the big group picture in front of the finished mo(s)tif be realised.

The secret of the castle

Teamwork / Riddle / Local

Like so many historic buildings, our houses have had their fair share of stories over the centuries and harbour a secret or two.

In this varied team activity, you will go on a journey of discovery together in small groups. Little by little, you will learn more about the house and unravel the great mystery surrounding the castle. You will discover the location and the numerous possibilities that both the grounds and the house have to offer by chance.

You set off in small teams.

At the end of the day, it is revealed which team has learnt the most about the house and can thus unravel the castle's mystery.

This format is ideal for familiarising yourself with the location and quickly finding your way around the grounds.

We hope you enjoy exploring the castle.

Abandoned crime scene

Thriller / Suspense / Teamwork

The echo of the murder that has just been committed can still be clearly recognised by the police cordon, the body outlined in chalk and the baffled forensics team.

Although the circle of suspects has been narrowed down, the local police are still in the dark.

The aim is to convict the real criminal and track down the crucial clues.

But how do you get the hair sample from the tree stump? What tools do you use and how do you secure the fingerprints?

Only if you work together will you be able to convict the perpetrator and win the worthy reward.

TeamRescue

Excitement / Teamwork / Riddles

Recreate the following scenario with your team and discover hidden talents:

After an unexpected crash landing, you find yourself in a challenging situation: your team is on its own, surrounded by the remains of your aircraft. There is hope - but only if you manage to find objects in the wreckage that are vital for survival.

Equipped with a map and compass, water purification kits and safety equipment, you set off for an abandoned radio station. Navigate through unknown terrain, provide food and water, and rescue essential items from extreme locations such as heights, depths and floods. Your goal: Light a beacon to signal your rescue.

This task offers a unique opportunity to get to know your colleagues under completely new circumstances. In an atmosphere characterised by a shortage of time and limited resources, one thing is crucial above all: keeping a level head and sticking together as a team.

Mario Kart Event

Fun / Teamwork / Nostalgia

Everybody knows Super Mario. But not yet the unique Mario Kart experience! With remote-controlled Mario karts, retro N64 game consoles and an exciting carrera track, this event takes fun and teamwork to a whole new level. Action and adrenaline guaranteed.

All good things come in fours! This also applies to the entertaining team event with the moustachioed plumber and his friends:

With the retro Nintendo 64 controller against your mates? No problem on a real television in a living room atmosphere.

Chasing the balloons with the RC remote control and the Mario quads? Always a pleasure.

Meanwhile, the matching vehicles are manufactured in the kart factory. This is real handcraft.

For the finale, we invite you to the Carrera track. Here things are getting exciting again.

Soapbox derby

Team building / creative / cooperation

Working in small teams, the participants construct adventurous and creative soapboxes from flexible kits.

The groups share tasks such as body design, marketing concept and construction. This means that everyone is involved and can contribute their individual skills and personal strengths. After construction, each team presents its vehicle in an entertaining car parade.

Here the special features of their own soap box derby car can be showcased.

The event comes to an eventful conclusion in a race with drivers and pushers.

Fire up your team with a motivating chant!

Planning and building the soapboxes together encourages cooperation and team spirit among the participants. This allows the group to experience a new sense of togetherness outside of everyday working life. Take the enthusiasm and motivation from this day into your everyday life! A creative and unusual offer that challenges the whole team.

The aim of this construction project is the joint development and construction of a marble run system. Firstly, several teams prepare sections of the ball run, which are then joined together. The tasks are challenging for example, a loop has to be integrated, and the ball has to conquer it.

Creativity and innovative ideas are required. Success lies in good coordination between all participants with a view to the overall goal, without losing sight of their own task.

The participants' ambition is sure to be awakened here! The focus is on creativity and detailed solutions.

Drone Race

Innovation / Challenge / Play & Fun

In this competition, we work with the participants to create a challenging course that requires skill and precision from the drone operators. The aim is to avoid collisions, as any contact with the obstacles results in penalty seconds - and in a race where every second counts, these are particularly precious. In addition to the quadcopters, you can also experience Sphero Balls (ground drones). Using an intuitive app, the groups steer the robot balls around the racetrack and give it their all. The teams use iPads as cockpits on their way to collective team success.

The third challenge is a construction project that packs a punch: The teams have to prove themselves in the Lego lab and work together to produce a drone. Tricky communication challenges included.

Winemaking Academy

Experience / Create / Sell

WINE MAKING ACADEMY is an original team-building concept that gives you an insight into the life of a real oenologist.

You will work as a team to make your own wine by blending six red grape varieties from your vineyard. You give your cuvée a name and design the label. Everything you do in the winery can have an impact on your marketing, sales and financial strategy.

It is a simulation of a winery. A blind tasting of all the wines produced by all participants concludes this unique wine experience full of surprises.

Good teams are like good wines: they are based on an alchemy of passion, respect, trust, listening and diligence. Not on rigid recipes.
