

Do you have any other wishes?

Our selection of TeamBuilding
activities
At Finca El Bosque

An animation... But why?

- To say thank you
- To get to know each other
- To bring people together
- To reveal hidden talents
- To engage
- To learn
- To generate new ideas
- To dream and wonder
- To be amazed
- To get excited about
- To create unforgettable memories...

Our selection of Teambuilding Activities is there to **support every team, every challenge.**

To guarantee a perfect experience, all our partners have been carefully tested and selected.

Our criteria? Relevance, attention, flexibility and originality. In English, French and Spanish.

PPSSST! In addition to this selection, we will be happy to recommend other events, please ask us!

Estefanía

The challenge of La Finca El Bosque “to discover the legend of the place”.

Gymkhana / Challenge / All together

45,00eur p/p + VAT

1h30

Outdoor

All team sizes
(12 pers min)

At each Châteauform', there is a secret that is passed on to each of the hosts... your participants are invited to discover this secret.

This will also be an opportunity to get to know each other better, strengthen team spirit and discover the site in a playful way. In this particular treasure hunt, the participants will be divided into teams to make a tour of all the corners of El Bosque guided by their road book (one per team) and helped by the instructions of the activity leader. They will have to overcome different tests (some of skill and others of ingenuity) that will allow them to obtain the key words necessary to solve the challenge. All the tests are designed to encourage teamwork and cohesion, while at the same time there is a team competition component, but the main thing is fun!

*Who will be the fastest to find the secret of the place so well guarded by our hosts? We will find out together at the awards ceremony over a drink at the bar or quietly settled in the garden.

Academia de Cocktail Academy

Atypical / Comic / Positivism

A fun activity to offer new experiences in a group, where everyone participates and learns. The aim of the workshop is to make all participants have fun around the culture and tasting of various types of cocktails. We will explore different flavours and combinations.

But how do they differ? How do you combine the ingredients to get the best out of them? A good cocktail requires at least: knowing how to use a cocktail shaker, using the right glass, using the right ice, adjusting the amount of alcohol, and knowing how to serve it. And you will learn all this during this workshop.

Laughter therapy

Atypical / Comic / Positivism

We all need to laugh! Laughter provides us with a positive state of mind that helps us to cope with everyday life, allows us to perceive reality in a more positive light, motivates us, encourages collaboration and creates bonds of closeness with others.

This atypical laughter therapy workshop is based on theatre, it is a little corner of fantasy guided by one or more professional actors (depending on the number of participants). It is a journey full of fun, in which we gradually discover our comic side and lose our sense of the ridiculous in front of our classmates.

All team sizes

Enjoy cooking and compete with your team!

You will be divided into teams, each with their own work table and cooking materials, as well as pencil and paper for their list of ingredients. You will find a central table that acts as a "market" full of colours, smells and flavours, where you can choose all the ingredients you need.

Rules of the game : you have one hour to prepare several tapas. The person in charge of purchasing for each team can choose the ingredients from the market for your list, and you must also choose a head chef, who will be responsible for presenting the tapas to the jury!

The aim is to be active and creative with the dishes, to have fun choosing the names and descriptions of the dishes made, to present them in the most professional or funniest way - everyone as he or she feels like!

To add to the fun, you will be your own jury, under the watchful eye of our chef to ensure there is no cheating!

Once the competition is over, it's time to taste your delicious tapas during a festive aperitif where we will give medals and a bottle of cava to the winning team... Enjoy!

Laser Combat

Environment / Large teams / Sports

Would you like to play planning a combat in the gardens of El Bosque? We propose you this adventure and team activity, which does not use any kind of projectile, only infrared rays. Very ecological, fun and competitive. You will have fun collaborating side by side to achieve the assigned mission. There are 3 game modes: missions, short games, and tournament format, almost like a real video game!

If you want to complement your meeting and encourage teamwork from another point of view, you can ask us for the version "Laser Combat focused on the development of competences: Leadership and Teamwork". An activity that we have developed with our partner specifically for companies..

The mental and logical challenges are a challenge for individuals and teams, for this reason they become an effective Team Building tool to enhance communication and coordination skills to overcome these challenges.

It will be basic your ability to make decisions in situations of pressure and quick decision making. We will have to decipher a large number of enigmatic messages with lots of clues, tricks and methods to test your wit and shrewdness.

Negotiation, versatility, imagination and creativity will be your best tools to get out of the different environments created. In each game, your team will go through different tests in which you will have a limited time to solve them. Each game has its own theme and a 'facilitator' who will guide the group. The times, the help, the capacity of resolution will add points to the group and the winner will be the one that has maintained a line of cooperation and constant resolution.

It will not be easy, but you can do it!

Depending on the number of participants and the time you have available, we propose several settings or themes:

Museum → 1 room

Medieval + museum → 2 rooms

Medieval + museum + mistery → 3 rooms

2 medieval + 2 museum → 4 rooms

-Specified theme adapted to your company or your products (extra cost)

C.S.I. Minority Report (Cluedo)

Observation / Science / Teamwork

The 5th Convention on Optical Novelties has come to a halt, a famous scientist with a revolutionary patent has been murdered.
Are you ready to uncover the culprit?

In this mission, the participants, divided into teams, will put themselves in the shoes of a real C.S.I. team in order to find the fingerprints, interrogate the suspect, decipher codes, test their skills on the ballistics track, analyse evidence in the laboratory, create sketches,... all to catch the murderer.

Your team will have technological help: drones, Google Glass, Leap Motion, virtual reality...

Wine Academy

Learning / Creation / Fun

The participants become, for a few hours, the owners of a vineyard of several hectares. A team of professionals allows you to enter into the marvellous adventure of wine.

After being introduced in a very simple and dynamic way by the animating oenologist to the production, technique and tasting of wine, the participants, in teams, will set off in search of the "Fine Wine".

They will have to create a wine, create a brand, a label and the marketing strategy to launch their "creation".

Associated activities: playful wine tasting; learning about wine through games

Wine tasting

Learning / Culture / Knowledge

A tasting led by an oenologist who will introduce you to five regional and national wines over an aperitif in a fun and informal way.

Tasting involves not only drinking, but enjoying wine through the senses of sight, smell and taste. During the tasting, you will translate these sensations and perceptions into words, expressing what aromas and flavours the wine transmits to you. This oenological evening will make you discover what the Spanish land has to offer in regional and national wines and cavas.

From 41 to 50 participants: 1823 € + VAT

Joint mural

Collaboration / Creativity / Coordination

Participants will paint a mural (in 2x1m modules) divided into teams, following the instructions of the fine arts teacher. Each team works on a part of the mural, which is then assembled with the rest. But not everything will be so simple, as the participants will have to work together so that the final mural fits perfectly.

What they paint are landscapes prepared in advance (either urban or nature), although a more personalised work can be done including the company's logo or an evocative image (with an extra cost for personalisation). The results are good and eye-catching in all cases and you get a tangible group result that you can put up somewhere in the company if you want.

XXL car construction

Pride / Great teams / Achievement

Inspired by the construction of cars by means of Lego XXL type pieces, we have created giant cars that you can build with your team and company that are fully functional once assembled. You can finish with a team race to find out which is the best and most resistant car. An experience with which you can get the best photos and a unique experience that you will not forget.

Get the materials to build the most robust, original and aerodynamic vehicle. You will have to assemble it, "tune" it with your personal style, test it and once finished, put it to the test with the rest of the team.

Marina - Luxury cosmetics

CSR activity: The most efficient firm: The beehive

CRS

This talk, ideal for groups, takes place in a comfortable and relaxed atmosphere, where participants will discover how the fascinating world of bees inspires principles that are essential in any area of life because they serve as a guide to mutual understanding, teamwork and productivity. Through practical examples, we will explore how each role in a hive contributes to collective success, from the ‘nurse’ to the ‘logistics manager’.

An enriching experience that also connects business values with sustainability, allowing us to reflect on small gestures that can make a difference in caring for the planet.

MINDFULNESS RELAXATION AND MINDFULNESS

Personal development / Transmission / Gaining height

Mindfulness is mindfulness of the present moment and is synonymous with an undisturbed and perceptive mind. Its regular practice leads to better emotional management, strengthened health and improved performance in all areas of life. Focused on the business world, this workshop helps us to better manage our time and effort, concentrating on the task at hand at any given moment, and learning to manage 'information overload'.

Meditating in the company helps the well-being by reducing stress, creativity and the performance of workers.

EXPERIENCE TO BE AWARE OF THE IMPACT OF TEAMWORK

Personal development / Team / Gaining height

A very fun and visual experience in which, with just a few balloons, some markers and a little over an hour, the group that carries it out becomes fully aware of the great impact that working in a team has on the results, compared to simply doing it individually.

This activity also contains a high component of fun and entertainment, and a space in which a group reflection is invited, to analyse together how we can transfer or integrate what we have learnt in our company and what obstacles we may encounter in doing so.

Vibrating Together" Workshop: Communication and Team Cohesion Program

Relaxation / connection

Vibrational Coaching, with musical instruments (no previous musical knowledge required) "Together we are stronger", isn't it?

When there is good communication and cohesion in the team, the actions of some add to those of others, and the team becomes much more efficient. If you feel that your employees are working "on automatic", without good communication and without a real cohesion with the rest of their team, we are here to help you.

Our way of communicating and our cohesion as a team are key to creating a good atmosphere in your company, as well as to increasing productivity and improving results.
