- Focus on the transmission of information within the team, with an emphasis on communication and leadership.

The object built by each team will then be presented to a jury and the competing teams.

Flamenco

Flamenco is, above all, a "rhythmic" dance. Stomping the ground with the feet means creating grounding, solidity, and presence. Doing this in a group means moving together, creating unity, the joy of feeling like a single body/sound, and sharing vital and positive energy, all in a playful and joyful context.

This workshop allows participants to build a movement sequence to perform together, in synergy, overcoming false beliefs of inadequacy. The specific gestures and proud posture of flamenco also provide a strong boost to self-esteem and self-efficacy.
