## Team games

Learning games of increasing complexity that include movement activities, leadership, problem-solving, communication and strategic challenges.

Core themes: teamwork, leadership, communication and listening, the group as a system in which everything we say or do impacts everyone, handling complexity, collective intelligence, interdependence between individual contribution and team goal, trust, synergy, and cooperation.

Learning is fun and transforms every game in an opportunity for personal and professional growth.

Physical engagement: it can be calibrated between low and high.

Indoor/outdoor: These games are possible both indoors and outdoors, with appropriate adaptations and according to the number of participants.

Location	Duration	Price
 Indoor or outdoor	 2h	 From €1500 + VAT

## Olympic Games

Team games with competitive accents and sports aspects (the proposed games are in some cases referred to sports disciplines, such as soft rugby), very lively and requiring a certain physical engagement, certainly higher than the Team Games format.

Suitable for groups who want something moving and active. Indoor is not possible.

Physical engagement: high. People will sweat and be exposed to outdoor risks (mosquitos, muddy soil, hot or humid weather etc.), with possible discomfort or injuries (like in any sport or fast-paced activity).

Location	Duration	Price
 Outdoor	 from 2h	 from €1500 + VAT

## 4 Elements Olympic Games

To develop leadership, communication, listening, motivation and team spirit while having fun

A less sporting alternative to the traditional Olympic Games ... a sequence of team games of strategy, problem-solving, communication and coordination, that empower teamwork and develop energy and connection among participants.

The activity is made of cooperative and strategic games, the theme of the four elements is developed through four different challenges, each one of them linked to a specific element: water, air, earth and fire.

In team games linked to water, participants could do activities in the swimming pool or water activities without having to get wet.

In "earth" games, the group will be guided in team games in which participants will have to run, crawl or walk.

In games linked to air, participants will have to lift each other or to ingeniously lift other objects that are difficult to take or using limited resources.

In games linked to fire, creativity will be at the roots of challenges.

A set of original and amusing activities that will end with significant learnings about teamwork, and about how to activate collaboration and coordination within a work group.

## Photosafari

*Creativity, personal commitment  
and engagement, cooperation,  
teamwork, fun, cohesion.*

In this experience we combine the photographic treasure hunt (inside the Park) with the photo contest.

Divided into subgroups, each team will have to go for themed photographic shots (the themes can be corporate goals, vision, philosophy, the identity of the group, the values of the company, the objectives of a meeting, etc. ).

Before starting the photographic treasure hunt, the trainer will provide the teams simple and clear indications to incorporate the basic rules of smartphone photography into the shots.

The photographic shots to be taken can be selfies, still life, symbolic images or tableau vivant, and for each category of competition the trainer, at the end of the treasure hunt, will declare a winner.

This activity is a way to develop teamwork through the creativity of an art that, today, is the undisputed protagonist of modernity.

At the end of the experience, the participants will have the complete presentation of the photos, as an indelible reminder of the experience made together and of the shared emotions.

Some examples of the participants' photos.

## Drum Circle

Let's play music together!  
A unique experience whereby participants are invited to create music from their free and creative spontaneity and musicality, orchestrated by the drum facilitator.

At the beginning of the Seminar, the Drums will help opening the participants' relational and emotive channels, while at the end the objective will be to celebrate what has been discussed during the meeting.

Location	Duration	Price
 Indoor or outdoor	 2h	 From €1500 + VAT

## Corporate Song

We will guide your group to compose their own hymn, that could be a song that translates into music and words the vision, the identity, the values and the objectives of the group and the company, or even the target skills of a training meeting or the focus objectives of a meeting. After an initial work focusing on the keywords for building the text, the group will choose the musical genre, the tempo and the reference style to use to compose verses, specials and refrains.

Location	Duration	Price
 Indoor	 from 2h	 from €1500 + VAT

## Story Telling and Totem

*Team bonding, from I to WE, co-creation,  
personal engagement, sense making, vision building*

In this experience, participants will be invited to search in the spaces around the location (forest, garden, lawn, courtyard ...) for some natural objects' representative of their answer to these questions:

- Who am I today? How do I feel? How am I?
- What is my contribution to this this? (my «superpower», the particular competence, light or color that I bring with me uniqueness in the team)
- How do I feel at this stage in the history of our company (or at this time of organizational change, or other relevant question for your team).

Once this individual "treasure hunt" is over, the participants gather in a circle and each person tells their own findings and the reason for the choice. It is usually a moment of great human connection, listening and trust building. The circle of trust is formed, and the group is all set for the next stage of the experience, a more "practical" one.

The group will then build a "group totem", a single symbolic object that will thus represent the team itself, with all talents, identities and feelings / emotions present at the moment in the group, using ropes and ribbons to assemble all the found materials. This activity is a metaphor for the group to co-create the relational space, the essential values and pillars of working together, what's important and cannot be missed in the team's way of communicating and interacting.

# FRANCIACORTA

## *experiences*

The guided visits of the selected cellar always include a short introduction and overview about Franciacorta territory, with a particular focus on its history and the natural features that have allowed its development as the Italian wine region par excellence for the production of sparkling wines with classical method. The winery staff will illustrate the production process: from harvest to labeling.

Weather permitting, the cellar tour starts in the vineyard where some aspects will be more easily understood: soil composition, organic production strategies, growing practices.

The group will walk through the vinification room, where they will be able to see the pneumatic press and wine tanks. After that, a stop in the refinement room, where the bottles stay for a longer period on lees. Particular attention is given to the riddling phase and the disgorgement that are always very fascinating.

The cellar tour ends with the tasting of Franciacorta DOCG wines: 2 or 3 products of the host winery paired with a few snacks. It is possible, on request, to arrange the tasting in an "aperitivo" style with a more filling pairing that might include cold cuts, cheeses and bruschette.

**PLUS!** This experience is suitable and highly appreciated by all types of guests, men and women of all ages, whether they might be wine enthusiasts or not. No special physical skills are required.

## Cellar Tour

*with wine  
tasting*

*in a small family  
winery*

This activity can be organized in different contexts depending on the typology and size of the winery. Choosing a small family run winery, the group will find a more informal atmosphere and a cozy rural environment. Guests will be welcomed by the producer himself, who will be happy to tell them about his passion and philosophy. This type of location is in general more suitable for smaller groups, up to maximum 60 participants.

# Wine Trekking

in a small  
winery

A medium level trekking session aiming to discover the history of the producer's family that owns

the wine estate. Along the trail through the vineyards, you will learn about the typical aromas of Franciacorta sparkling wines.

Wine trekking defines a unique experience of outdoor tasting: the group will taste three Franciacorta DOCG wines in three different evocative and panoramic places in the vineyards of the winery.

To participate there is no need to be athletes, since the trail is mid-low difficulty. The activity does

not require any special physical skills, but a mental attitude towards physical activity and appropriate

clothing.

At the end of the wine trekking session it will be possible to shortly visit the small cellar to

see the vinification and aging rooms.

*PLUS! This experience is suitable and highly appreciated by all types of guests, men and women of all ages,*

*whether they might be wine enthusiasts or not. They can spend time outdoors surrounded by nature.*

## Bike tour

Our bike tour is offered as a half-day dynamic team building experience. It is a challenging and fun sport activity aiming to foster team spirit.

The guide will lead the team along a delightful ring-route of about 20 km on secondary roads, through the vineyards and the Torbiere del Sebino natural reserve, to finally reach the most wonderful spots of the Franciacorta wine region.

Along the tour, a pit stop is arranged in a wine cellar for a bubbly toast and some rest. It is also possible to organize a guided tour of the winery or a lunch in a typical restaurant that might be a second stop along the way. The larger the group, the easier the route will be.

Mountain bike and helmet will be provided on site.

Approximately one guide every 15 people will accompany the group. The experience is meant to be enjoyed with a normal mountain bike since the route is quite easy and avoids steep roads. In any case it is possible, on request, to arrange an e-bike rental (maximum of 20 e-bikes available simultaneously).

The activity does not require any special physical skills, but a mental attitude towards physical activity and appropriate clothing.

# Iseo Lake Cruise with tourist guide

The presence of Iseo Lake is a great advantage for the Franciacorta wine region: winter are milder, summers are fresher, and the landscape is definitely more beautiful.

It is still a off-the-beaten-path destination, not so well-known by tourists. For this reason, it is often a nice surprise for visitors who come to the area for the first time. The lake is suitable for swimming and its calm waters can host relaxing cruises.

The experience offered includes a boat tour with an expert tourist guide that will explain to the group the history and the most interesting curiosities concerning Iseo Lake shores and the three islands located in the lake: the private islands of San Paolo and Loreto, and Monte Isola, the largest lake Island in Europe.

The cruise leaves from Sulzano and lasts about 50 minutes with a stop of 40 minutes at Peschiera Maraglio, a small picturesque fishing village on Monte Isola. This short stop over is ideal for a relaxing lakeside walk or a coffee in one of the bars at the marina.

PLUS! This experience is suitable and highly appreciated by all types of guests, men and women of all ages and interests. It can be organized all year round since some boats are available with roof and windscreen.

# Fake Tour

Our fake tours are dramatized tours where a narrator (actors, not necessarily tour guides) leads the group on a journey made of 13 stops, each of them corresponding to a story regarding the place. At the beginning, every player receives a game sheet and a pen and has to select True or Fake after listening to the stories. At the end of the tour, the narrator reveals the correct answer, explaining why the fake ones were fake. Whoever guesses more answers, is going to win the Fake Medal! Of course the main goal isn't just to win but to look at these places in a totally different way!

## Necessity is the mother of invention

### "A la guerre, comme à la guerre"

There are situations when we cannot be prepared but we still have to act in the best way. Improvising is not something that everyone can do but at the same time it's what we do every day, minute by minute, as we don't follow pre-established scripts in our daily life.

And what if this time there was a script?

What if there was someone able to train us through the improvisation and the management of the unforeseen?

## The Quiz

*A quiz about what you want:  
an anniversary to celebrate, the story of a company or an  
absurd argument!*

*A quiz to challenge who you want and find out who knows  
more about the theme chosen, but above all a pretext to  
play together and a valid alternative to endless meetings  
or video calls.*

*The experience of these years has taught us that quiz  
mode is the most effective to maintain high involvement,  
fun and concentration!*

*You can play individually or as a team, even without being  
all in the same place.*

*Also ideal for business dinners!*
