

Châteauform'

Our selection of animations

Desire to create memories, to make together, to celebrate, to let go, to enrich your meetings? We have what you need!

Silvia & Manon, Your Magic planners

La Arena's challenge to "discover the legend of the place".

In each Châteauform', a secret is passed on to each of the hosts... your participants are invited to discover this secret. This will also be an opportunity to get to know each other better, to strengthen team spirit and to discover the site in a playful way.

In this particular treasure hunt, participants will be divided into teams to travel around all the corners of La Arena, guided by their route book (one per team), and helped by the instructions of the activity leader. They will have to overcome different tests (some of skill and others of ingenuity) that will allow them to obtain the key words necessary to solve the challenge.

All the tests aim to encourage teamwork and cohesion, while there is also a team competition component, but don't doubt that the main thing is the fun!

Who will be the quickest to find the secret of the place so well guarded by our hosts?

We will find out together at the prize-giving ceremony over a drink in the bar or in the garden.

La Arena Tapas Competition

Enjoy cooking and compete with your team!

You will be divided into teams, each with their own work table and cooking materials, as well as pencil and paper for their list of ingredients. You will find a central table that acts as a "market" full of colours, smells and flavours, where you can choose all the ingredients you need.

Rules of the game: You have one hour to prepare several tapas. The person in charge of shopping for each team can choose a maximum of 20 ingredients from the market for your list.

And you must also choose a head chef, who will be in charge of presenting the tapas to the jury!

The aim is to be active and creative with the dishes, to have fun choosing the names and descriptions of the dishes made, to present them in the most professional or funniest way, each according to his or her own feeling!

To add to the fun, you will be your own jury, under the watchful eye of our chef to ensure there is no cheating!

Once the competition is over, it's time to taste your delicious tapas during a festive aperitif where we will give medals and a bottle of cava to the winning team... Enjoy!

It is an activity designed to be done in the afternoon-evening, before the aperitif.

Joint Mural

An original Team Building activity especially aimed at those who hide behind the well-known phrase 'I can't draw' or 'I was always failed in art class', and which promises to get advanced students of Bansky himself.

Participants will paint a mural (in modules of 2x1 m) divided into teams, following the instructions of the fine arts teacher. Each team works on a part of the mural, which is then assembled with the rest. But not everything will be so simple, as the participants will have to work together so that the final mural fits perfectly.

What they paint are landscapes prepared in advance (either urban or nature), although a more personalised work can be done including the company's logo or an evocative image (with an extra cost for personalisation).

The results are good and eye-catching in all cases and you get a tangible group result that you can put up somewhere in your company if you want.

Collaboration, creativity, teamwork, and coordination!

Private non-captive hot air balloon flight

Live an unforgettable experience with your team letting the wind carry you away, while you enjoy the views of the northwest side of the Sierra de Guadarrama, and watch the deer run through our farm. As a souvenir you will have a HD video and a photo report of your private hot air balloon flight.

The flight starts at dawn from an esplanade on the La Arena estate. Once you have landed in a nearby place that will vary depending on the wind direction, you will be offered a glass of cava and a small snack, and you will be given your flight diplomas. At the end you will be picked up in several vehicles to take you back to La Arena.

Ballooning activities are directly linked to weather conditions. For safety reasons, flights must take place at a very specific time, at dawn in the early hours of the morning to avoid thermal currents, leaving the whole day ahead for other activities or meetings.

You will have experienced pilots, insurance for the activity, and the Authorisations of Active Tourism and the State Aviation Safety Agency (AESAs).

You should wear comfortable walking clothes, a cap, headwear, sports or field shoes and a camera. The temperature in the balloon is a little higher than on the ground before take-off.

The bridge that connects your team!

A team activity in which you build a suspension bridge by hand with the materials we provide you with: ropes marked according to their different lengths and wood of two different sizes.

In order to build the bridge you will also need the blueprint, but this blueprint is cut up like a puzzle, and to get the puzzle pieces you will have to pass shooting skill activities.

Guided by this blueprint, working collaboratively and helping each other, you will build the bridge that you must then cross one by one, demonstrating the trust you have in the work of the whole team.

This activity is available all year round, mainly outdoors, and under cover in case it rains. The activity monitor will guide you to achieve the success of the mission.

Gymkhana Aquatic

Phew, it's hot! Nothing better than cooling off with this team activity at the Los Ángeles de San Rafael Lake, just 20 minutes from La Arena. We will organise transport for your team, which will take you to the water activity centre.

Once there, you will be divided into teams to compete in achieving the objective of your mission. On the beach, each team will build by hand a raft (with drums, planks and rope to tie the wood to the boat, and oars to be able to sail) with which the participants will have to sail, in order to achieve the objective: "free Willy", who has been stranded on the shore (an inflatable). They will have to transport him to a certain point on the lake.

Are you ready for a refreshing adventure!

Drone experience, construction and racing

Enter the world of the latest technology with this activity. Organised in teams, you will have to design a drone, pass some tests to get the parts to build it and personalise it with the colours of your company. Once built and tested, compete with the other teams within the closed circuit!

Each team will demonstrate their skill in handling the drone in a circuit where they will have to avoid all kinds of obstacles in the shortest possible time. Among the obstacles they will find: goals, bridges, inflatables, gates, water, hoops,... and they will end up landing on a runway set up for this purpose. It's fun, innovative, and totally safe - are you going to miss it?

Inspired by the construction of cars by means of Lego XXL pieces, we have created giant cars that you can build with your team and company that are fully functional once assembled.

You can finish with a team race to find out which car is the best assembled and most resistant. An experience with which you can get the best photos and a unique experience that you will not forget.

Get the materials to build the most robust, original and aerodynamic vehicle. You will have to assemble it, "tune" it with your personal style, test it and once finished, put it to the test with the rest of the teams.

Escape Room

Mental and logical challenges are a challenge for individuals and teams, which is why they are an effective team building tool to enhance communication and coordination skills to overcome these challenges.

Your ability to make decisions under pressure and to make quick decisions will be essential. We will have to decipher a large number of enigmatic messages with a large number of clues, tricks and methods to test your wit and shrewdness.

Negotiation, versatility, imagination and creativity will be your best tools to get out of the different environments created.

In each game, your team will go through different tests in which you will have a limited time to solve them.

Each game has its own theme and a 'facilitator' who will guide the group. The times, the help, the capacity for resolution will add points to the group and the winner will be the one who has maintained a line of cooperation and constant resolution.

It won't be easy, but you can do it!

Depending on the number of participants and the time you have available, we propose various settings or themes:

The Bomb, Mystery, Museum Robbery, Doctor X-Lab, Deactivate, Spy room.

-Specified theme adapted to your company or your products (extra cost)

CSR Activity - Corporate Social Responsibility

Laser Combat

Fancy a game of match planning in the gardens of La Arena?

We propose you this adventure and team activity, which does not use any kind of projectile, only infrared rays. Very ecological, fun and competitive. You will have fun collaborating side by side to achieve the assigned mission. There are 3 game modes: missions, short games, and tournament format, almost like a real videogame!

If you want to complement your meeting and encourage teamwork from another point of view, you can ask us for the version "Laser Combat focused on the development of competences: Leadership and Teamwork". An activity that we have developed with our partner specifically for companies.

Creating memories

Wine Academy

Participants become, for a few hours, the owners of a vineyard of several hectares. A team of professionals allow them to enter into the wonderful adventure of wine.

After being introduced in a very simple and dynamic way by the animating oenologist to the production, technique and tasting of wine, the participants, in teams, will set off in search of the "Fine Wine".

They will have to create a wine, create a brand, a label and the marketing strategy to launch their "creation"!

The Bacchus Olympics

Discover in a different and fun way the skills of the work team.

These olympiads are team games based on tests and wine riddles whose aim is to guess the name of the "mystery wine".

This activity usually takes place outdoors and is designed in the form of an Olympics.

The games are developed around original tests related to wine, some sporting and timed, others artistic, such as: the Nose of Wine to identify aromas, Pass the Barrel to demonstrate your skill, Turn is Winning to fight against the stopwatch, the Musical Stomp to extract the exact amount of must, the Colour of Wine to identify in black glasses if the wine you are tasting is white, red or rosé,...

There are 10 games to choose from!

Mindfulness, relaxation and mindfulness workshop

Mindfulness is mindfulness of the present moment and is synonymous with an undisturbed and perceptive mind. Its regular practice leads to better emotional management, strengthened health and improved performance in all areas of life.

Focused on the business world, this workshop helps us to better manage our time and effort, concentrating on the task at hand and learning to manage "information overload".

Mindfulness has been in vogue for a couple of years now as a practice to see things as they really are, paying attention to the direct experience of the present moment and without moral judgements. It is a fusion of different techniques (some of Eastern origin and others more current), and its regular practice has even become established in some international companies (SAP, Sodexo, Google, Alma Consulting Group), through workshops or 30-minute sessions for employees. Meditating in the company helps well-being by reducing stress, creativity and employee performance.

Our collaborator Helen Grain has created a 2-hour workshop to introduce these techniques to your team during your stay, but you can go deeper with workshops divided into several sessions. Helen comes from a long career in the financial and banking world. But after 15 years of Yoga and Meditation she has focused her life on offering workshops and courses in Meditation and Mindfulness with a professional approach, without following any religion or spiritual path.

Imagine your Universe - Feel your Universe

For thousands of years, human beings have longed to be able to imagine the Universe they inhabit. It is fortunate to have been born in an age when we can perform this stirring imaginative act, don't you think?

In this activity, the astrophysicist and populariser Juan Fernández Macarrón will make us imagine the universe and what it contains with the same clarity with which we imagine our home.

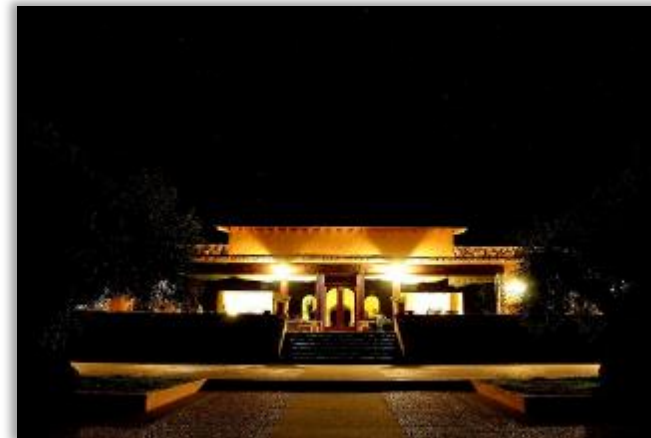

We will imagine it without figures, proportionate in sizes and distances.

Do you want to feel the thrill of really imagining the Universe and feel perfectly placed and oriented in it? Do you want to really have the Universe in your mind?

Observing, with a good telescope, dozens of celestial objects while imagining what you are seeing (direction, size, distance and physical characteristics) is something so special that we are convinced that you will never forget this experience.

You will enjoy this one-hour participative talk-colloquium before dinner, and as a complement while you dine we will set up the telescopes outside (if there is good visibility), and after dinner you will be able to go out whenever you want for an observation in total darkness.

You will come away from this experience with a new perspective on the meaning of the existence of the Human Being in the Universe!

Segway X2 Tour

La Arena is located in the privileged environment of the Sierra de Guadarrama, surrounded by holm oaks, pine forests and cattle farms. We propose you to enjoy this natural environment in a comfortable way, and at the same time respectful with the environment. We will organise a Segway excursion departing from La Arena, first of all along the paths of the estate. We will make a stop near the deer drinking trough, to try our luck and try to see the deer in the middle of nature.

Afterwards, the route will continue outside the farm, along country roads and cattle farms, between wooded hillsides and grassy esplanades. On your return to La Arena, the more adventurous can try out their newly acquired Segway skills on our all-terrain track (on the easier part of the route).

The activity will start with a short training to learn how to use the Segway, and then the tour will begin. The complete activity will last 2 hours or 2h30 maximum, limited by the battery life.

The Segway you will use is the X2 model, a model designed to be used on roads and even off-road, with special wheels for off-road use and a very "docile" and easy to handle behaviour. So everyone will be able to have fun without any danger. In addition, you will be accompanied by two monitors who will teach and guide you during the route.

A day at the lake

Get your team together to have fun around two water activities, Canoeing and Jet Sky.

You will have a great time in a privileged environment enjoying an experience in nature. At the end, you will be rewarded with a beer or soft drink on the sandy beach.

Jet Sky

The lake has a circuit delimited by buoys for the practice of Jet Sky. We propose the rental of two-seater jet skis, which you can enjoy alone or with a partner.

Cost:

64 € + VAT per participant for individual use of the motorbike, 10 minutes

49 + VAT per participant in shared use, two persons (10 minutes)

Canoeing

This activity takes place at the Los Angeles de San Rafael water activity centre on the lake, located 30 minutes from the Arena.

Cost of 3-seater canoes: €44 + VAT per participant

In both cases water is included during the activity, refreshments at the end.

Laughter Therapy Workshop

We all need to laugh! Laughter gives us a positive mood that helps us to face everyday life, allows us to perceive reality from a more positive point of view, motivates us, encourages collaboration and creates bonds of closeness with others. Laughter therapy brings out the "child" in us. It brings participants into contact with each other, allows them to get to know others and themselves better, helps them to disconnect, brings out the most authentic side of the participants, allows them to have a good time, brings the group together and creates a positive predisposition.

This atypical laughter therapy workshop is based on theatre, it is a small corner of fantasy guided by one or more professional actors (depending on the number of participants). It is a journey full of fun, in which we gradually discover our comic side (it is usually where we least expect it), and we lose our sense of the ridiculous in front of our colleagues.

Cocktail Workshop (or Gin and Tonic)

A fun activity to offer new experiences in a group, where everyone participates and learns.
The aim of the workshop is to make all participants have fun around the culture and tasting of various types of cocktails. We will explore different flavours and combinations.
In recent years, the cocktail and gin and tonic culture has been revived in Spain, and many trendy bars offer different combinations.

But how do they differ and how do you combine the ingredients to get the best out of them?
A good cocktail requires at least: knowing how to use a cocktail shaker, using the right glass, using the right ice, adjusting the amount of alcohol, and knowing how to serve it.
And you will learn all this during this workshop.

Place

Wine tasting and sampling

A tasting led by an oenologist who will introduce you to five regional and national wines over an aperitif in a fun and informal way.

Tasting involves not only drinking, but enjoying wine through the senses of sight, smell and taste.

During the tasting, you will translate these sensations and perceptions into words, expressing what aromas and flavours the wine conveys to you.

This wine night will allow you to discover what the Spanish land has to offer in regional and national wines and cavas.

Active visit of Segovia

We propose a new way of discovering this World Heritage city. You will be divided into groups of 3 people, and each team will be given a GPS, a map, and a "road book" with some questions to solve. In this way you will discover the historical part of Segovia, finding unusual places, at the same time you will have fun competing with other teams and you will learn interesting details.

Once the groups have been formed, the material distributed, and the explanation given by the monitors, each small group will go in different directions, distributing themselves throughout the city.

You have to find the "hidden treasures" with cultural, historical or picturesque information about the place where you find the information. At the end, participants will return to the starting point to check the treasures they have found, and find out the winning team.
